

RSVProfessional Development Training Seminar

Ashland University is supplying one semester hour of graduate credit for the first twenty registrants who are classroom educators to attend the RSVProfessional Development Training Seminar provided by Alliance for Healthy Youth.

- RSVP training and evidence-based curriculum is provided to all registrants at no cost as part of a grant from Ohio Department of Health.*
- RSVP Training Seminar will equip educators to empower, encourage, and educate youth to make and keep healthy lifestyle choices.
- RSVP positively affects school climate because of emphasis on respect, responsibility, self-control, courage and honesty.
- RSVP supports five National Health Standards and school district priorities.
- "This Seminar is a wonderful opportunity to understand an evidence-based powerful program that can impact students and, as a result, communities. I appreciated the detail offered as the instructor went through the curricula day-by-day, grade level by grade level. If a teacher is interested in providing programming to sincerely help students, this training is for them." (2012 Seminar Trainee)
- This was a hands-on detailed program over two 8-hour days covering the reasons and consequences for at-risk behaviors. There was a wide variety of instructional materials and media to explain and educate participants. The program provided detailed lessons and props for a 5-day lesson plan. The materials were first rate. Excellent Seminar!" (2012 Seminar Trainee)

When:

- June 19-20, 8:30-4:30 **OR**
- June 26-27, 8:30-4:30

Where:

[Zane State College \(Cambridge Campus\)](#)
9900 Brick Church Rd
Cambridge, OH 43725
